

On February 6, 2014 the MD of Pincher Creek held a question and answer session at Beaver Mines. Those in attendance could ask questions regarding topics that impacted their community. Castle Mountain was represented by three community committee members.

The question period focused primarily on issues surrounding the Hamlet of Beaver Mines such as the new proposed fire hall and bringing water to the hamlet. When the council was asked about the timeline for the new paved road to Castle Mountain Resort and the Area Structure Plan, no new information was disclosed. There was no definite timeline for either project shared at this meeting.

The next public Council Meeting is [February 25 from 1:00pm - 4:30pm](#).
